Mitsubishi General Committee for Expo 2025 Osaka, Kansai, Japan

## **Mitsubishi Pavilion at Expo 2025 Osaka, Kansai, Japan Concludes Exhibition — Welcoming 1.25 million visitors over six months —**

The Mitsubishi General Committee for Expo 2025 Osaka, Kansai, Japan, comprising 29 Mitsubishi Group companies and chaired by Yoshiyuki Nojima (Representative Director, Executive Vice President, Mitsubishi Corporation), announces the successful conclusion of its exhibition project for the Mitsubishi Pavilion at Expo 2025 Osaka, Kansai, Japan, as of October 13, 2025.

Through the pavilion, the Mitsubishi Group showcased its initiatives and solutions to address global challenges, while reaffirming its long-standing commitment—since its founding in 1870—to contribute to the sustainable development of the planet and society.

Under the core concept “Keeping the World Vibrant,” the pavilion presented immersive films and interactive exhibits based on themes such as “The Origins of Life and the Future of Life,” “The Preciousness of Life,” and “The Miracle of Living Together,” offering visitors a space to imagine and reflect upon the future of life.

Over the six-month exposition period, more than 1.25 million visitors boarded the pavilion’s Vertical Shuttle together with its navigator characters, NaNa and ViVi, embarking on the “Journey to Life”—a 75-million-kilometer voyage from the mysterious deep sea to the farthest reaches of outer space.

The Mitsubishi Group extends its deepest appreciation to all those who supported this endeavor and to every visitor who experienced the pavilion.

Building on this invaluable experience, the Mitsubishi Group will continue striving to contribute to the creation of a sustainable and vibrant future for generations to come.
