➤ **Building design**

To express the concept of everyone together creating happiness for tomorrow, the building design consists of small pieces constituting a large group. The structure will be designed by a project team from Mitsubishi Jisho Design Inc. To lessen the building's environment footprint, it will utilize the GX House provided by the GREEN×EXPO Association (supplied by Daiwa Lease Co., Ltd. ).

**Everyone Together,  
for a Planet of Abundance**

We hope that the “Mitsubishi Minnano Miraikan” exhibit will motivate visitors to think of what they can all do to ensure coexistence of nature with the city of the future and the importance of taking steps to achieve this. Please visit our pavilion at the GREEN×EXPO 2027 .
